Personal Development & Presentations:

"Thank you for coming to our school. I think you touched on a lot: life of the different sea turtles, how humans can help them. I would like to have you come back to present to the older grades."

~ A. Tremblay, *Ecole Our Lady of Perpetual Help, Sherwood Park, AB*

"I first worked with Carleen on a personal level, to help me be able to help my students during COVID lockdowns, the changes that were rushing at them and the overwhelming loss that the children were experiencing. What I experienced was insightfulness, caring and information that has impacted my personal and work lives.

Since Carleen's coaching supported me so well, I asked her to do a couple of sessions with the school staff. Again, her quiet, but powerful demeanor, passed on knowledge that has positively impacted many staff members. Her knowledge has allowed us to help our students more effectively and has created a more emotionally open space for the students to discuss their feelings and be able to deal with the constant changes in their lives. Carleen gives immediate tools and strategies that can be used with children, to help them cope with their losses. I now have more confidence in helping my students deal with their losses and emotions."

~ Patricia Arce, *Kirkness School, Edmonton, AB*

"Carleen Ross was professional in all our interactions with her. Her presentation on "How to deal with loss: A practical explanation for the practitioner and the client" was well prepared by Carleen and well received by participants."
